PROFESSIONAL SUMMARY

AI Engineer with hands-on experience building LLM-powered applications, intelligent agent systems, and full-stack AI products. Skilled in RAG pipelines, Prompt Engineering, LangChain-based workflows, and AI Agent development. Currently working at The Energy Lab, delivering production-grade AI solutions. Completed GfG 160 Days of Problem Solving, demonstrating strong DSA and problem-solving fundamentals.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript (Basics), SQL

Frameworks & Libraries: LangChain, LangGraph, LangSmith, HuggingFace, FastAPI, React, Streamlit, PyTorch, Scikit-learn, Pandas

AI & ML Skills: Prompt Engineering, RAG Pipelines, AI Agents, LLM Integration, Context Engineering, LLMops, LoRA Fine-tuning

Web Technologies: HTML, CSS, Bootstrap, REST APIs

Database Management: MySQL

Tools & Technologies: Git, GitHub, VS Code, Groq API, Railway, Docker, Kaggle, Gemini CLI, Claude CLI, OpenCode

PROJECTS

TrendPulse AI [GitHub](#)

May 2026 – Jun 2026

Python, FastAPI, React, LLMs, AI Agents, Data Analysis

- Engineered an AI-driven trend analysis platform using LLM-powered pipelines to identify and summarize emerging topics from live online data sources.
- Designed an interactive React dashboard with real-time trend visualization, enabling users to monitor market and technology trends and generate actionable insights.

Weather Agent [GitHub](#) | [Live](#)

Mar 2026 – Apr 2026

Python, FastAPI, React, Weather APIs, Railway, AI Agents

- Built and deployed an AI-powered weather intelligence agent providing real-time forecasts and location-based climate insights via a natural language conversational interface.
- Integrated external weather APIs with agent-based workflows and deployed on Railway with a responsive React frontend, enabling seamless public access.

AI Chatbot [GitHub](#)

Jan 2026 – Feb 2026

Python, FastAPI, LLMs, Streamlit, LangChain, Groq API

- Developed an AI-powered chatbot using LangChain and Groq API capable of handling project planning queries through intelligent natural language interactions.
- Implemented document-aware RAG workflows with persistent conversation memory, improving context-aware response quality and overall user productivity.

PROFESSIONAL EXPERIENCE

Artificial Intelligence Engineer

Feb 2026 – Present

The Energy Lab · Warangal, Telangana (On-site)

- Designing and deploying production-ready LLM solutions using Prompt Engineering, RAG, AI Agents, and LangChain pipelines, directly improving business workflows and automation.
- Applying Context Engineering, LLMops, and LoRA fine-tuning techniques to optimize model performance and deliver scalable AI systems in a fast-paced startup environment.

SQL Intern

Dec 2025 – Apr 2026

Slash Mark IT Solutions Pvt. Ltd. · Virtual

- Completed SQL internship at an ISO 9001:2015 certified, DPIIT-recognized organization, strengthening database design, querying, and optimization skills.
- Worked on real-world structured data problems, building proficiency in SQL for data management, reporting, and analysis use cases.

CERTIFICATIONS & ACHIEVEMENTS

- Completed GfG 160 – 160 Days of Problem Solving | Strengthened DSA and algorithmic thinking through consistent practice
- Achieved 5★ in Java & SQL on HackerRank | Demonstrated strong problem-solving and database management skills
- Artificial Intelligence Fundamentals – IBM SkillsBuild | Gained foundational knowledge of AI, ML, and NLP basics
- Foundation: Introduction to LangChain – Python | LangChain Academy (Apr 2026)
- Quickstart: LangSmith Fleet | LangChain Academy (Apr 2026)

EDUCATION

Bachelor of Technology in Information Technology

2022 – 2026

NBKR Institute of Science and Technology, Vidyanagar

CGPA: 7.5 / 10.0
